

ONCHAIN STABLE ASSET TOKENIZATION

MCGP-Backup is an on-chain solution for cash and stable asset tokenization, enabling users to securely tokenize their assets on the blockchain. It offers enhanced security, transparency, and the opportunity to unlock rewards or earn a return on savings (ROS).

ASSET INSECURITY

Are your assets truly secure? Traditional asset management comes with risks and limitations—physical loss, counterfeiting, fraud, illiquidity, geographic restrictions, and complex regulations. Protecting your wealth requires a smarter and decentralize approach.

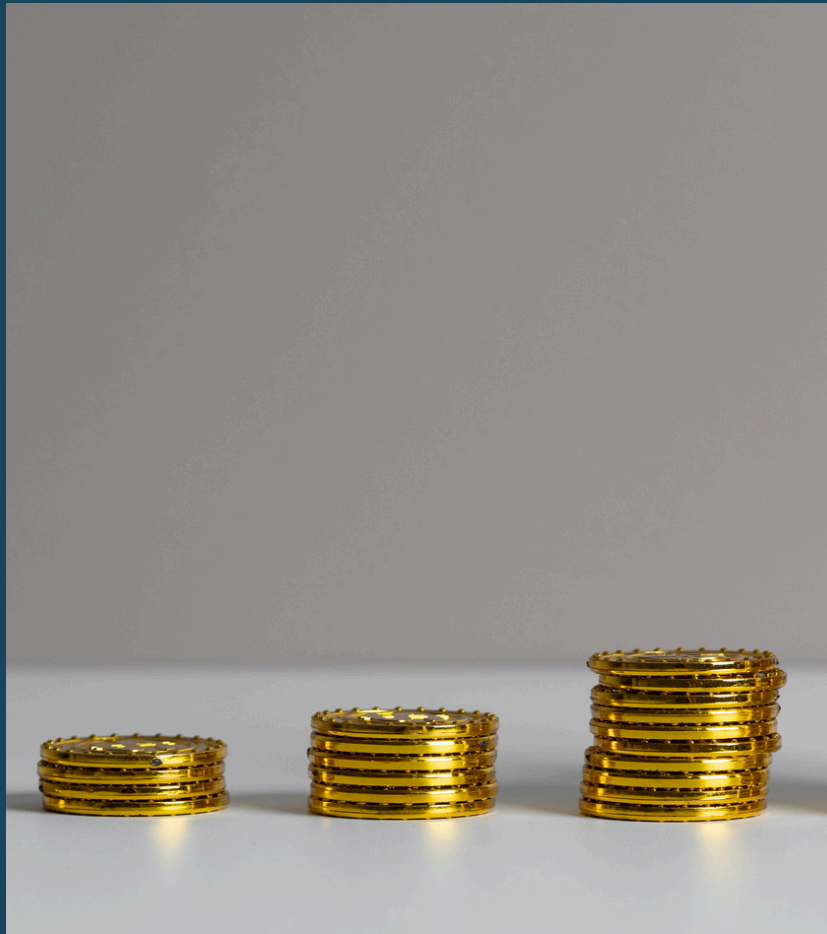

INTRODUCING MCGP BACKUP SOLUTION

MCGP Backup is an on-chain asset tokenization platform that ensures secure, decentralized, and liquid asset storage. Using blockchain, it provides immutable security and global accessibility. Each user can tokenize stable assets in fractional storage units, with a minimum of \$2 and up to \$2,000, supporting up to 1,000 units per account.
